

NRC - Food saw noise reducer case (Automatic only)

Description

The SEAMetal saws utilize a special technique which yields a perfect cut every time for identical and perfect double seams. This technique, however, creates a high noise factor.

In order to reduce the noise for lab usage, the NRC Noise reducer case was introduced

- Access to pull lever.
- Direct switch access.
- Reduces noise level from 105db to **80db**.
- Useful in laboratory environments
